INDUSTRIAL Production

Rely on a strong specialist medium for your market communication.

Your advantages:

- **Credible editorial environment**
- **Wide reach in the industry**
- **Strong user value and high target group affinity**

With INDUSTRIAL Production, you can reach your target group **precisely, across all media and effectively** – in print, digital and at events.

INDUSTRIAL Production – The entire production process

INDUSTRIAL Production covers the entire industrial manufacturing process chain – from development to assembly, from humans to artificial intelligence.

Whether in print, e-paper, online or at events, the media brand delivers exactly the content that specialists and managers in industry, production and technology need for their daily work on a monthly and daily basis.

Practical. Decision-relevant. Future-oriented.

Reach & performance – Your advertising message on all channels

- Total monthly circulation **54,788** copies (IVW, Q2/2025)
- **244,693** page views per month on average (IVW ONLINE 7/2024-6/2025)
- Four newsletters per week to over **41,000** newsletter subscribers (publisher's information 6/2025)
- Over **5,000** followers on relevant social media channels (publisher's information 6/2025)

Your target group: Investment decision-makers from industry

INDUSTRIAL Production readers actively shape industrial value creation:

- **90% of recipients hold management positions** (managing directors, owners, plant, division or department managers; source: publisher's analysis)

High target group affinity – For a strong advertising impact.

INDUSTRIAL Production – Your media brand for successful B2B communication

With INDUSTRIAL Production, you can communicate across media and network throughout the entire industry via:

- the monthly **print magazine**
- the digital **e-paper edition**
- a high-reach **website, also in English**
- regular **newsletters**
- the **supplier search tool: Company Connectory**
- active **social media channels**
- targeted **live and online events**
- and tailor-made **content creation solutions**

INDUSTRIAL Production – The communication platform for your message in industrial production.

Events – Live & Digital

With formats such as

- INDUSTRIAL Production Production digital networking days
- Products of the Year awards ceremony
- Webinar theme days
- In-house workshops

... INDUSTRIAL Production offers **targeted points of contact with decision-makers** – Both digitally and on site.

Conclusion: Your communication platform for sustainable market success
INDUSTRIAL Production is your cross-media platform for successful B2B communication in industry.

Become a media partner now – and reach decision-makers where they get their information.

Title Portrait

INDUSTRIAL Production

1. Title	INDUSTRIAL Production
2. Brief Description	<p>INDUSTRIAL Production is the leading trade publication for modern and intelligent industrial production. With its cross-media orientation – print magazine, e-paper, newsletter, social media and web portal (industrial-production.de) – the media brand offers a high-quality platform for decision-makers, developers and users in industrial manufacturing.</p> <p>INDUSTRIAL Production covers the entire value chain – from design and automation to logistics. The focus is on technologies, trends and best practices that pave the way for the smart factory and Industry 4.0.</p> <p>Key topics</p> <ul style="list-style-type: none">* Automation & Industrial IoT* Drive and linear technology* Robotics (industrial robots, cobots and peripherals)* Software, AI, safety and security* Quality assurance, sensor technology, measurement technology & image processing* Production, machine tools & metalworking* Handling technology, transport systems & conveyor technology* Assembly and production logistics* Retrofit & modernisation of existing plants* Design and development* Operational environment: occupational safety, sustainability, after-sales service <p>INDUSTRIAL Production is therefore the ideal environment for presenting innovations, products and solutions for industry in a targeted and effective manner.</p>

3. Target Group	Engineers, designers, managers and investment decision-makers from the manufacturing industry	
4. Frequency	12 issues per year	
5. Magazine Format	DIN A4	
6. Year	7th year 2026 (formerly SCOPE and handling)	
7. Subscription Price	<p>Annual subscription within the UK € 219.00, of which € 169.60 is for the magazine and € 29.40 postage</p> <p>Annual subscription abroad € 229.00, of which €169.60 is for the magazine and € 39.60 is for postage</p> <p>Single print issue € 24.00 including current VAT, plus € 3.00 postage</p> <p>Annual subscription to digital e-paper (domestic/international) € 90.00, including current VAT, excluding shipping costs</p> <p>Single issue of digital e-paper (domestic/international) € 18.00, including current VAT, excluding shipping costs</p>	
8. Circulation	54,788 copies	
9. Membership / Participation	IVW, IVW-Online

Actual Print Circulation	100.0

Topic Matrix

Topics	Issue (month)
Construction + Operation	
Workstations: Manual workstations, worker guidance, workstation equipment	4, 11
Occupational Health and Safety + Workwear: Workwear, personal protective equipment (PPE), workplace safety, noise protection, emergency equipment, explosion protection, ergonomics, fire extinguishing systems, air purification, access control, fire protection, locking systems, access control systems	4, 10
Operating Resources: Lubricants, cooling lubricants, pipes, cleaning agents, cleaning equipment, pressure air generation, coolants, water supply, pallets, containers, rollers, wheels, packaging technology, fans, air conditioning technology, hand tools	1-2, 7-8
Identification + Labelling: Product labelling, scanners, RFID, barcodes, labelling systems, laser systems	3, 9
Maintenance + Servicing: Servicing, maintenance, spare parts management, maintenance documentation, spare parts and tool organisation, fault and malfunction analyses	1-2, 6
Design and Machine Elements: Bearings, guides, gear wheels, shafts, axles, belts, standard parts, housings, assemblies	3, 9, 12
Design + Simulation	5, 12
Sustainability: Recycling, air treatment, recycling, oil and wastewater treatment, cleaning systems, renewable energy supply, CO2 reduction, energy efficiency	1-2, 7-8
Supplier	6, 11
Automation, Robotics & Industrial AI	
Drive Technology: Electric motors, gearboxes, frequency converters, motion control, linear drives, brakes, couplings, rotary encoders, motor monitoring, actuators, shafts, automotive, stepper motors, actuators, electromobility	4, 7-8, 12
Autonomous Transport Systems: Driverless transport systems, navigation systems	1-2, 6, 10
Electrical Engineering: Cables, connectors, power supplies, lighting, lighting technology, energy chains, cable guides, control cabinets, EMC	3, 12
Embedded Systems, Edge and Cloud Computing: Industrial PCs, custom hardware, operating systems, cloud computing, edge computing	1-2, 11

Topic Matrix

Topics	Issue (month)
Energy Technology: Generators, lightning and surge protection, explosion protection, energy management, power electronics, batteries and accumulators, energy recovery, DC technology, waste heat utilisation and heat recovery, consumption optimisation and CO2 minimisation, energy monitoring and smart metering	3, 7-8, 9
Industrial Image Processing: Visualization software, industrial cameras, vision systems, artificial intelligence, scanners, embedded vision, quality assurance and fault detection	5, 10
Industrial Communication: Communication technology, industrial Ethernet, bus systems, OPC UA, edge computing, gateways, switches, data cables, protocols, industrial IoT, embedded systems, wireless M2M	1-2, 3, 5, 11
Industrial Robots: Welding robots, robot cells, tool changers, kinematics, articulated arm robots, SCARA	1-2, 6, 12
Industrial AI + Data Analysis: Predictive maintenance, digital twin, big data, machine learning, deep learning, IoT platforms, neural networks, artificial intelligence, analysis software, data security, quality assurance and fault detection, production optimisation	4, 9, 11
Monitoring + HMI: HMI, predictive maintenance, condition monitoring, operating devices, touchscreens, displays, tablets, handhelds, input devices, data glasses, VR glasses, augmented reality	5, 10
MRK + Cobots: Collaborative robots, robot assistance, human-robot collaboration	1-2, 6, 12
Safety + Security: Light barriers, locking devices, access control, signalling devices, IT security, cybersecurity, blockchain, data security, firewalls	3, 12
Sensors + Measurement Technology: Condition monitoring, sensors, quality assurance, testing systems, measuring devices, measuring methods, laser measurement technology, calibration	5, 10
Software and Apps: Digital twin, ERP, merchandise management, MES, blockchain, supply chain management, augmented reality, production planning and control system (PPS), production planning, configurators	3, 7-8
Control Technology: Control systems, PLCs, industrial PCs, control systems, regulators, controllers, control software, robot control systems, embedded systems	1-2, 6, 11
Manufacturing Technologies	
Additive Manufacturing: 3D printing, generative manufacturing, materials, plastics, metal powders, prototyping, laser sintering, model making	1-2, 7-8, 11
Fluid Technology: Hydraulics + pneumatics: pumps, compressors, hoses, pipes, valves, cylinders, filtration, sealing technology, dosing technology, compressed air generation, liquid treatment, filtration	4, 7-8
Cutting + Joining: Water jet cutting, laser cutting, sawing, cutting, welding, soldering, screwing, riveting, crimping, gluing, joining	3, 9, 11

Topic Matrix

Topics	Issue (month)
Forming: Pressing, bending, drawing, punching, shearing, rolling, cold forming, hot forming, solid forming, sheet metal, tube and wire processing	5, 9, 12
Materials: 3D printing materials, surface technology, metals, powders, plastics, composite materials, cast materials, recycling, raw materials, material refinement, semi-finished products	7-8, 11
Machine Tools + Plant systems: Machine tools, machining centres, CNC machines, CNC controls, life cycle management, high-speed machining	1-2, 5, 9, 12
Machining: Machining, milling, turning, drilling, grinding, gear cutting, honing, precision tools, surface technology, tools	3, 9, 12
Handling + Production Logistics	
Grippers, manipulators + handling technology: Grippers, manipulators, balancers, positioning devices, load handling devices, dosing systems, rotary units, rotary tables, rotary indexing tables, pick & place, end effectors, SCARA and delta robots, tool changers, feed and discharge systems, palletisers	1-2, 5, 7-8, 11
Lifting, Transport and Conveyor Technology: Conveyor belts, conveyor chains, rotary indexing tables, rotary tables, overhead conveyors, sorters, sorting systems, distribution systems, lift tables, hoists, crane systems, warehouse lifts, driverless transport systems, shuttles, autonomous robots, transport robots, industrial trucks, forklift trucks, crane systems	6, 10, 12
Linear Technology: Linear systems, gantries, guides, lines, axes, cylinders, spindles, dampers	4, 9, 12
Assembly Technology: Assembly cells, work cells, assembly systems, assembly robots, workstation systems, worker assistance, workstation equipment, digital assistance systems, ergonomics, order picking, pick systems, parts provision, workpiece carriers, feed and discharge systems, hand tools	4, 7-8
Production and Intralogistics	3, 7-8, 11
Clamping technology: Clamping systems, tool holders, clamping cylinders, clamping jaws, steady rests, turning chucks, clamping systems	5, 9
Research + Development	
Research + Development	all issues
INDUSTRIAL Production Products of the Year	3, 12

Special Advertising Formats

Front Cover

Cover page package consisting of cover page and 2-page cover story.

Front page format: 210 mm x 230 mm
The content of the front page and front-page story is coordinated with the Editorial team.
Achieve maximum visibility for your products and solutions.

Price: € 11,880

Inside Cover

Inside cover package consisting of inside cover and 2-page story.

Format inside cover: 210 mm x 230 mm
The content is coordinated with the editorial team.

Price: € 9,290

Inserts

80 - 135 g/m²

2 Sheet = 4 pages € 11,270

3 Sheet = 6 pages € 14,910

Required delivery quantity: 14,800 copies

Supplements

Inserts over 25 g/piece on request

Full print run price € 5,050
(up to 25 g, incl. postage) (not discountable)

We offer numerous special advertising formats for your individual advertising campaign – please contact us.

Shipping address for special advertising formats

Delivery note: For INDUSTRIAL Production magazine,
issue (no.), Vogel Druck, Leibnizstr. 5, 97204 Höchberg

Extended E-paper with Interactive Elements

Extended E-paper – More attention. More interaction. More impact.

**In addition to your advertisement booked in the print edition:
Take advantage of the interactive possibilities of our extended e-paper**

Increase the reach and impact of your print advertisement with the interactive possibilities of our extended e-paper.

Supplement your booked advertisement with multimedia content – e.g.:

- Videos
- Image galleries
- GIFs
- Surveys

This is how you bring your **products and solutions come to life**, create a **more intense user experience** and offer your target group **real added value**.

Extended e-paper

In all e-paper editions of our print editions, multimedia content can be optionally integrated into your advertising medium.
(The prices quoted are in addition to the print advertisement prices)

Video integration	€ 500
GIF animation	€ 500
Survey	€ 1,900
Image gallery	€ 1,500

Print – Technical Data

Technical Details / Processing

Printing Process	Processing
Magazine Format	trimmed format 210 mm wide x 297 mm high plus 3 mm trim on all open sides
Type Area	180 mm wide x 252 mm high 4 columns, each 42 mm wide
Printing Process	Cover: sheetfed offset Content: web offset
Colours	Printing inks (CMYK) according to ISO 12647-2 (PSO). Special colours on the cover are possible by arrangement. Minor tonal value deviations are within the tolerance range of web offset printing. Solid black areas should be underlaid with a 40% cyan screen.
Data Formats	Print-ready closed PDF files. Please provide one PDF file per individual page. Relevant graphic and text elements must be at least 5 mm away from the trim. Image resolution 300 dpi
Proof	Colour-accurate proof according to "Media Standard Printing" (bvdn). Digital proofs without FOGRA media wedges are not considered colour-accurate.
ICC Profile	Cover: isocoated_v2_eci.icc (Fogra 39L) Contents: PSO_INP_Paper_eci.icc (Fogra 48L) The corresponding profiles are available for download at www.eci.org .
Data Transfer	Please send the data (up to 10 MB) to: druckunterlagen@pelemedia.de
Data Archiving	Data is archived, so unchanged repetitions are usually possible. However, no data guarantee is provided.
Warranty	We accept no liability for delays or errors caused by incorrect data. We cannot accept any liability.
Contact	Nike Menrath Phone: +49 89 2006573-11 nmenrath@pelemedia.de

Inserts / Supplements / Stick-ins / CDs

Supplements	
Minimum Format	105 mm width x 148 mm height
Maximum Format	10 mm smaller in height and width smaller than the carrier product
Inserts must be trimmed and folded and delivered as finished end products. Folded Products must be closed at the spine and suitable for machine processing.	
Inserts	
Minimum Format	115 mm width x 140 mm height
Maximum Format	Format of the carrier product
Trim	Booklet format: Head trim 6 mm, front and foot trim min. 3 mm, plus + 3 mm milling margin in the spine

Inserts must be delivered uncut and folded. Multi-page inserts must be closed at the spine and suitable for machine processing. Inserts must be designed and produced in such a way that no additional preparation or processing is required. Any complications and additional folding and gluing work will be invoiced separately. Before accepting and confirming an order, a binding sample, or if necessary a blind sample with size and weight specifications, must be submitted.

Inserts must be designed in such a way that they are recognisable as advertising and cannot be confused with the editorial content. The placement of inserts depends on technical possibilities. Inserts printed on materials other than paper can only be accepted by the postal service with the prior consent of the publisher.

Webinar:

Price: € 5,320

Optionally, you can also book a full-page advertisement for the webinar.

(The advertorial will be designed by the publisher)

Price: € 7,810

Possible file formats: GIF, JPEG, HTML, PNG, Iframe, Redirect Specifications correspond to recommended file size, max. 1 MB possible

Native Advertising

Native advertising – Your content with the look and feel of editorial articles

Online advertorials are the ideal solution for presenting complex topics in a way that is tailored to the target audience and has a long-term impact.

Designed in the style of an editorial article, the advertorial is perceived by users as high-quality specialist content – and thus achieves a particularly high level of credibility and relevance.

Native communication with a lasting impact.

Tip: Combine the online advertorial with our Social Media Plus package to distribute your content via our wide-reaching channels – and increase your visibility on social media in a targeted manner.

Highlight of the week also includes newsletter

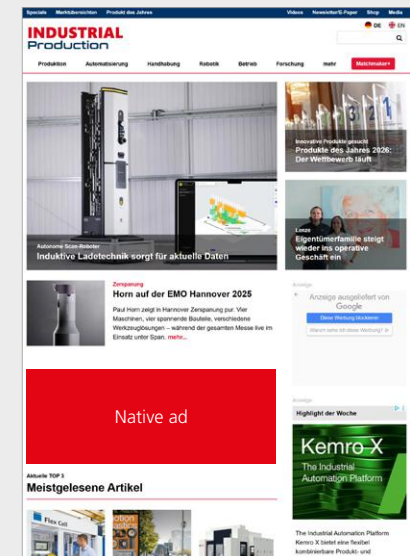

- Present your product, webinar or event for one week on our specialist portal
- Headline: 40 characters including spaces, text: 250 characters including spaces, image: 300 x 250 pixels
- Link to your website or a microsite designed by us with your contributions

Highlight of the week

Terms and Conditions

General Terms and Conditions for Advertisements and Advertising of Pelemedia GmbH (as of 2025)

Here you will find the General Terms and Conditions (hereinafter referred to as "GTC") of Pelemedia GmbH, which apply to the use of Pelemedia's services.

For a service requiring registration with Pelemedia, you must agree to the terms of use applicable to the use of this service. To do so, please click on the "Agree" field or tick the box as part of the opt-in procedure to give your consent. By clicking on the "I agree" field or ticking the box, you declare that you have read and agree to the terms and conditions. You can also print or download the terms and conditions.

1. Scope: The General Terms and Conditions apply to all services offered to the user on the Pelemedia website, in particular to paid content and services, competitions, and the marketplace and community areas. Deviations from these General Terms and Conditions or special terms of use for individual services shall only be deemed agreed if they have been expressly confirmed in writing by Pelemedia. In particular, the mere failure of Pelemedia to object to other terms and conditions does not mean that these are deemed to have been agreed. Pelemedia is entitled to amend these terms and conditions at any time. Pelemedia will inform the user in good time of any changes to the terms and conditions applicable to them. The change shall be deemed to have been approved by the user if he does not object to the change or terminate the contract within one month of receiving notification of the change. In the event of an objection, Pelemedia shall be entitled to terminate the contract in due time. In the notification of the changes, Pelemedia will specifically point out the possibilities of objection and termination, the deadline and the legal consequences, in particular with regard to a failure to object.

Within the scope of the amendment to the General Terms and Conditions, Pelemedia is in particular entitled, in the event of a condition being invalid, to supplement or replace it with effect for existing contracts, in the event of a change in a statutory provision or supreme court ruling, if this change affects one or more terms of the contractual relationship, to adapt the affected terms in a manner that corresponds to the purpose of the changed legal situation, provided that the new or amended terms do not place the user in a worse position than under the original terms. Any changes, including the updated version of the General Terms and Conditions, will be sent to the user by email. Pelemedia is not responsible for the internet services provided by third parties to which Pelemedia links from its pages or which Pelemedia mediates. The terms of use of the respective providers apply to these offers. This applies in particular to cooperation partners on Pelemedia. The offers of the cooperation partners on Pelemedia merely represent a sales platform for the respective partners of Pelemedia. When using the offers provided by cooperation partners, an independent legal relationship is established between the user and the cooperation partner, which is independent of any legal relationship between Pelemedia and the user. The legal relationship between the partner and the user is governed exclusively by the terms and conditions and operating processes of the cooperation partner. Pelemedia accepts no liability or warranty for this.

2. Access and participation eligibility: In principle, all users are eligible to access and participate. The following minimum requirements apply to competitions. All persons who have reached the age of 18 or can provide proof of consent from a parent or guardian are eligible to participate. By participating in the competition, each participant agrees to have their name and photo published in the print edition and on the website, and to consent to further rights of use for advertising and marketing purposes. Employees of Pelemedia GmbH and persons involved in the organisation of the competition are excluded from participating in competitions. This also applies to their relatives. Pelemedia also reserves the right to change or correct the rules of competitions at any time. Pelemedia only concludes contracts for paid content and for the provision of internet access with persons over the age of 18 or with the express consent of their legal representative. Furthermore, the websites are not intended for persons in countries that prohibit the provision or access to the content posted on them. Each user is responsible for informing themselves about any restrictions before accessing these websites and for complying with them.

3. Availability: Pelemedia's services are offered to the user subject to availability. Pelemedia endeavours to ensure that Pelemedia's services are available to the user without disruption. Maintenance work and/or further development and/or other disruptions may restrict and/or temporarily interrupt the possibilities for use. This may also lead to data loss under certain circumstances. This does not give rise to any claims for compensation on the part of the users affected. Pelemedia is also entitled to change or discontinue the services offered at any time at its own discretion without notice.

4. Contractual relationship: The contractual relationship regarding the use of Pelemedia's paid content is established by registering with the desired and selected payment system provider, agreeing to the general terms and conditions of use, and acceptance by Pelemedia. Acceptance by Pelemedia takes place at the latest when access to the paid content is opened. The use of third-party services advertised by Pelemedia on its pages or to which Pelemedia provides access via its pages gives rise to contractual relationships exclusively between the user and the third-party provider. Pelemedia accepts no liability or warranty in this regard.

5. Opening a user account: For certain services on the Pelemedia website, the user must register or can open a user account. The user assures that the personal information provided during

registration or when opening a user account on the Pelemedia website, in particular their first name, surname, postal address, date of birth and email address, are true and correct, and that they will notify Pelemedia immediately of any changes to this information.

6. Payment transactions: Fees for chargeable content are settled prior to provision of the service using a payment system provider selected by the user. Only the terms of use of the payment system provider selected by the user apply, which are indicated at the appropriate place and for which corresponding assistance is provided. The fees are to be paid in accordance with the respective terms of use to the selected payment system provider.

If the user fails to meet their payment obligations or if payments are not made or are reversed, Pelemedia is entitled, subject to further claims, to block the user's access. If the access is blocked due to outstanding claims and the user settles these, access will be unblocked again. Pelemedia reserves the right to commission third parties to carry out debt collection.

7. User obligations: The user undertakes not to violate applicable legal provisions and any contractual provisions when using Pelemedia's services. In particular, the user undertakes to ensure that any content distributed by them does not infringe the rights of third parties (e.g. copyrights, patent rights and trademark rights), that applicable criminal laws and youth protection regulations are observed, and that no racist, Holocaust-denying, grossly offensive, pornographic or sexual, harmful to minors, extremist, glorifying or trivialising violence, glorifying war, promoting a terrorist or extremist political association, inciting a criminal offence, containing defamatory statements, offensive or unsuitable for minors or other criminal content. The user further undertakes to observe the recognised principles of data security for the protection of data and to comply with the obligations of the data protection regulations, to check emails and queries sent to Pelemedia for viruses with the greatest possible care, to comply with legal, official and technical regulations, to keep their user name and password secret and password secret, not to disclose them, not to tolerate or enable anyone else to gain knowledge of them, to take the necessary measures to ensure confidentiality and to notify Pelemedia immediately in the event of misuse or loss of this information or any suspicion thereof. Any indications of misuse of Pelemedia's content or payment system must also be reported to Pelemedia immediately. The user indemnifies Pelemedia against any claims by third parties that they may assert against Pelemedia due to infringement of their rights by this user. This also includes the costs of appropriate legal action and defence. Pelemedia reserves the right, in the event of justified suspicion of misuse of Pelemedia's services or payment systems, to block this user's access to its content and any existing user account, and to involve the investigating authorities. The user may only offset Pelemedia's claims with undisputed or legally binding claims. The user shall only be entitled to rights of retention on the basis of claims arising from the individual, specific contractual relationship of which these General Terms and Conditions form an integral part.

8. Liability: Pelemedia and its representatives or vicarious agents shall only be liable for damages, in particular due to delay, non-performance, poor performance or tort, in the event of a breach of essential contractual obligations, the fulfilment of which could be particularly relied upon. The exclusion of liability does not apply to intent and gross negligence. Otherwise, Pelemedia shall not be liable unless there are mandatory legal provisions. Pelemedia shall only be liable for foreseeable damages. Liability for indirect damages, in particular consequential damages, unforeseeable damages or atypical damages, as well as lost profits, is excluded. The same applies to the consequences of industrial disputes, accidental damage and force majeure. Pelemedia provides its own information and data as well as information from other providers via hyperlinks (internet links) on the internet and on mobile devices. This information and data is provided for informational purposes only, without the user being able to rely on or trust the timeliness, accuracy or completeness of the information. Pelemedia therefore accepts no warranty or liability, in particular for direct or indirect damage resulting from the use of the information or data found on the Pelemedia websites. In particular, Pelemedia accepts no responsibility for the content or functionality, accuracy or legality of third-party websites referred to via links from the Pelemedia websites. Pelemedia offers discussion forums and chats. The content and information exchanged by users in these forums is not subject to control by Pelemedia. For this reason, Pelemedia accepts no liability for the content and information posted in the forums. The responsibility for the content that the user publishes on the Pelemedia pages lies exclusively with the user. Pelemedia excludes any liability for technical or other malfunctions. Pelemedia accepts no liability for any damage or loss, in particular for the dispatch of prizes to be awarded in the context of a competition. The above limitations of liability apply to all contractual and non-contractual claims.

9. Liability for defects: If the user complains about paid content due to incomplete or defective services provided by Pelemedia, the user must report the complaints to either Pelemedia or the payment provider immediately after becoming aware of them, in accordance with the terms of use of the payment system provider chosen by the user. If Pelemedia is liable due to justified and timely complaints, Pelemedia shall be entitled to demand that the user pay the full amount of the invoice.

In the event of incomplete performance, Pelemedia shall deliver the missing part and, in the event of defective performance, shall, at your discretion, either repair the defect or deliver a replacement. The user may demand a reduction in payment if Pelemedia refuses to repair the defect or deliver a replacement, if this is impossible or if it fails in any other way. The user shall have no right of withdrawal.

10. Copyright: All content, information, images, videos, databases and computer programmes (e.g. widgets) published on the Pelemedia website are protected by copyright. Use is permitted for private personal use only. Any use beyond this, in particular the private and commercial reproduction, modification, distribution or storage of information or data, in particular of texts, text parts, image and film material, requires the prior express consent of Pelemedia. This also applies to inclusion in electronic databases and reproduction on CD-ROM, DVD, etc. Private and/or commercial reproduction, modification, distribution or other misuse of computer programmes is not permitted. The user does not acquire any ownership rights by downloading or sending the source code of a computer programme. No copyrights or other ancillary copyrights are transferred. If the service and/or services are discontinued, the user is obliged to delete the source code provided immediately. In all other respects, the legal restrictions arising from copyright law and other applicable legal provisions apply.

11. Content submitted by users: Users who submit their own content (e.g. videos, photos, photo series, texts,

etc.) to Pelemedia (e.g. as part of competitions, reader campaigns, internet competitions) agree by submitting this content that it may be reproduced, distributed and publicly displayed on the internet and in print media free of charge. The user further declares that they own all copyrights and other rights to the submitted content and that persons depicted in the submitted graphic content (e.g. videos, photos, photo series) who are not merely incidental to a location or part of depicted gatherings, processions or similar events consent to the publication. For persons under the age of 18, the consent of a parent or guardian is required. Entries sent by post cannot be returned to the participant. Users undertake not to send Pelemedia any content that is illegal, grossly offensive, pornographic or sexual, harmful to minors, extremist, glorifies or trivialises violence, glorifies war, promotes a terrorist or extremist political organisation, incites criminal activity, contains defamatory statements, or is otherwise punishable by law. The user also undertakes not to send any content that contains advertising or commercial content. Pelemedia reserves the right not to publish submitted content. The user fully indemnifies Pelemedia against all third-party claims arising from the user's breach of their obligations under these terms and conditions or – contrary to this declaration – the user not owning all rights to the submitted content or the persons depicted not consenting to publication. The submitted content is the personal expression of the user and does not represent the opinion of Pelemedia. The user has no legal claim to the publication of the submitted content.

12. Right of withdrawal: The user is entitled to withdraw from the contract within two weeks. The period begins at the earliest upon receipt of this notice. The timely dispatch of the declaration of revocation is sufficient to comply with the deadline. It must be made in writing without giving reasons and addressed to: Pelemedia GmbH, Richard-Reitzner-Allee 2, 85540 Haar, Germany.

In the event of an effective revocation, the services received by both parties must be returned and any benefits derived must be surrendered. If the user is unable to return the services received in whole or in part, or only in a deteriorated condition, compensation must be paid for the loss in value. However, the right of revocation shall not apply if Pelemedia has commenced the performance of the service with the express consent of the user before the end of the revocation period or if the user has initiated this performance himself (e.g. by downloading, etc.).

13. Termination: Each party reserves the right to terminate the contract for good cause. Good cause shall be deemed to exist in particular if the user continues to violate essential provisions of these General Terms and Conditions despite receiving a warning and/or if the user commits misconduct against third parties by using Pelemedia's services for illegal purposes or for purposes that are harassing to third parties. All terminations under these General Terms and Conditions must be made in writing to the address specified in Section 12. Upon termination taking effect, access to Pelemedia's services will be blocked.

14. Place of performance/place of jurisdiction: The place of performance is the registered office of the provider. In business transactions with merchants, legal entities under public law or special funds under public law, the place of jurisdiction for legal action is the registered office of the provider. Unless the provider's claims are asserted in summary proceedings, the place of jurisdiction for non-merchants is determined by their place of residence. German law applies.

If the place of residence or habitual abode of the customer, including non-merchants, is unknown at the time the action is brought, or if the customer has moved his place of residence or habitual abode outside the jurisdiction of the law after conclusion of the contract, the place of jurisdiction shall be the registered office of the provider if the contract was concluded in writing.

15. Final provisions: Legal recourse is excluded in connection with participation in competitions. Should individual provisions of these General Terms and Conditions, including these regulations, be wholly or partially invalid, the validity of the remaining provisions or parts of such provisions shall remain unaffected. The invalid or missing provisions shall be replaced by the respective statutory provisions.
